

Why to buy:

- Easy to use
- Sort on all data
- Filter data
- Great overview
- Export option
- GRPR Data Report

"Tailormade Reports gives you the opportunity to get the full view of your events. Who has participated, when and for how long."

Lars Aamod, Zaqsolutions

Define you own reports from Adobe Connect with Tailormade Reports

You are now able to make full reports from the module in Adobe Connect. We make the reports just the way you need it, and save the data to an Excel file.

What is Tailormade Reports?

Tailormade Reports is a tool created to be an extension of the report function in Adobe Connect, that let you view, print and manage your meeting's, training's and event's statistics.

Imagine you can get any report from Adobe Connect with just one click and deliver it directly to your desktop in Excel format.

With Tailormade Reports you also get GDPR Report

The purpose of the report is to collect all users in the Adobe Connect database so that the GDPR manager creates an overview of which personal data is registered.
After all data is collected, a Microsoft excel file will be downloaded.

GDPR Report

This report collects all users in the Adobe Connect database and creates an overview of which personal data are registered.

The GDPR Report is assigned to see self and collect the following information for all participant, host and guest, when its available:
First name
Last name
E-mail

How to use:
Press the Start button and the job will be executed as soon as possible depending on the data load.
After all data is collected a download of a Microsoft excel file will start.
