Host and Presenter Start View

When the Host and/or Presenter run the MP3 and Timer Pod, the following view will appear:

The screenshot shows a configuration window for the MP3 and Timer Pod. At the top, there are two checked checkboxes: "Timer" and "MP3Player". Below them is a "Title:" label followed by a text input field containing "Type the title" and a font size dropdown menu set to "40 pt". Underneath is a "Time Out:" label with three input fields for "hh", "min", and "sec". A section titled "Advanced Settings" is expanded, showing several options: "Start Blink When Left" with an unchecked checkbox and a value of "0"; "Time Out Message:" with a text input field and a font size dropdown set to "20 pt"; "Font:" with a dropdown set to "Digital", a font size dropdown set to "90 pt", and a color selection icon; and "Background Color:" with an unchecked checkbox and a color selection icon. At the bottom left of the window is a "Start" button with a play icon.

Setting

- **Timer, MP3 Player:** the pod will start both with Timer and MP3 Player by default but these settings may be changed if needed. Host can uncheck the check-marks
- **Title:** this message/copy will be displayed to all the Hosts / Presenters / Participants in the room, the Title font size can be changed manually using the drop-down field located next to Title edit box
- **Time Out:** the time Timer will start with
- **Start button:** this button will close the Configuration view and start the timer with the selected settings

Advanced Settings

- **Start Blink When Left:** an optional parameter, it should be activated with Enabled check-mark if needed; the timer will start blinking.
- **Time Out Message:** the message will appear as soon as the timer stops, the Time Out Message font size can be changed manually using the drop-down field located next to Time Out Message edit box
- **Font, Font Size, Color:** the settings for timer look and feel
- **Background Color:** the color of the Adobe Connect background (it can be transparent if Transparent option is selected)

Example of fully configured settings for the Pod:

The image shows a configuration window for a 'Pod' with the following settings:

- Timer MP3Player
- Title: 40 pt
- Time Out: : :
- Advanced Settings**
 - Start Blink When Left: Enabled
 - Time Out Message: 20 pt
 - Font: 90 pt
 - Background Color: Transparent
-

Host and Presenter Main View

When the Host selects the Start button, all attendees in the room will see the started Timer.

Host's options:

- **Config:** will stop the Timer for everyone in the Adobe Connect room and reopen the Configuration view
- **Restart:** will restart Timer for everyone in the room with the previously used settings
- **Pause/Play:** will pause the timer; as soon as Pause button is clicked it will be replaced with Play button; the host will be able to click Play and continue
- **Information:** will open the information pop-up

- **The logo:** opens <http://connect-innovation.com/> URL in the default browser

- **Player controls:** they are shown on mouse over. User is able to Pause/Play a track, switch between tracks, adjust the volume.

Participant Main View

Participant Main view looks like this:

Participant's options:

- **Player controls:** user can control volume level or mute

- **The logo:** opens <http://connect-innovation.com/> URL in the default browser
