

Connect Innovation

YOUTUBE VIDEO PLAYER POD

INTEGRATE YOUTUBE VIDEO CONTENT SEAMLESSLY INTO YOUR ADOBE CONNECT MEETING

Integrating video content into virtual meetings has, until recently, been an awkward and unwieldy process. Utilizing eSyncTraining's YouTube Pod, users can incorporate YouTube videos into real-time Adobe Connect meetings, coordinate video viewing, add annotations, clarify information and allow for a more dynamic response to questions.

eSyncTraining's YouTube Pod enables businesses, universities, and organizations to create a seamless user experience that avoids many of the pitfalls of video-based solutions such as interruptions, user error and lack of real-time engagement.

The YouTube pod is incorporated within an Adobe Connect Share pod and is desktop and mobile friendly.

YOUTUBE ACCOUNT ACCESS

Log into your YouTube account to access your pre-built video playlists and tagged videos for easier access to your files. Livestream your videos into the Adobe Connect room.

ON-DEMAND VIDEO

Incorporate YouTube video content in real time to engage your audience like never before! Instantly stream, pause, rewind and fast-forward as needed, giving you full control of your richer and more interactive virtual meeting.

PLAYLIST CONSTRUCTION

Use playlist support to minimize disengaging pauses for a more seamless meeting experience. You can build and search through your own playlists or utilize pre-existing playlist libraries and dedicated YouTube channels.

MULTI-DEVICE SUPPORT

Extend your reach! Your live meeting can be accessed anywhere, anytime, and on any connected device! Whether you're using a laptop or tablet, your hosted meeting can be viewed by audiences anywhere.

WHITEBOARD ANNOTATIONS

Use the video as a canvas using Adobe Connect's Draw functionality! Zoom in on and mark up frames to go more in depth, point people toward nuances, and guide them to key information. When done, save the image for later use!

ENHANCED SEARCH

Find online content with both precision and speed. Search with keywords, paste a YouTube specific video or playlist URL, or drop in a video ID tag, Filtering results as they come. Find the videos you want more easily!

YOUTUBE POD VS. UPLOADED VIDEO

Incorporating the YouTube player in your Adobe Connect meeting saves you the time and effort to convert your video files to the correct upload specifications. Using the YouTube player is the same as the YouTube website, and follows the same rules and restrictions.

Get started today with a 30-day free trial and take the first step to better engagement with YouTube integration for Adobe Connect!
